SUMMARY

My name is Devan Ferrel. I'm from Bekasi, West Java and I was born in Bekasi, 27 June 2004. My current goal is learning and develop while also participate in developing websites. In the future, i want to be a backend engineer or data scientist because I'm interested in managing data, logical programming and statistics. While I don't have deep knowledge about web development, I have deep understanding about basic programming, including branching, looping, selection, methods, arrays and classes in java. I also have proeffeciency in listening english conversation and good enough to talk in english language.

Major in, Faculty of Computer Science
Cumulative GPA: - (first year)
Relevant Coursework: Fundemental Programming
Awards: (optional)

WORK EXPERIENCES

CO-CURRICULAR AND VOLUNTARY ACTIVITIES

Rohkris SMAN 14, Lead of Documentation Division.   **Nov 2020 - Present**
Rohkris SMAN 14 is an organization who serves every christian students and lean towards religious activites, like retret, bimen, and christmas. My jobdesk in that position was designing instagram feeds for christmas and farewell party, documenting events and making aftermovie. Since I was the lead of the division, I was also managing how the aftermovie was presented and how shortmovie in occasional christmas was going to be presented.

- [Responsibility].

[Event Name], [Position]   **Month Year – Present**
